(LAN, WAN, Wireless Consulting Services)  
Expires 06.30.09  
SAP Vendor Number 186009-000  
Certified as a WBE**

**Bypass the burdensome RFP process...**

The ITQ process provides statewide IT services contracts that allow all Commonwealth agencies a fast and efficient means to secure IT services with one or more pre-qualified vendors. Commonwealth agencies can acquire their required IT services based on an added-value solution rather than lowest cost by using the existing ITQ contracts.

**Act 57 Piggyback Provision :** solutions4networks agrees to provide services under Act 57: WHEREAS **Act 57** of May 15, **1998** permits local public procurement units to participate in those contracts for supplies, services, or construction entered into by the Department of General Services (DGS) that are made available to local public procurement units. A local public procurement unit is defined as: any political subdivision, public authority, educational, health, or other institution; and to the extent provided by law, any other entity, including a council of governments or an area government; nonprofit fire, rescue, or ambulance company; and any nonprofit corporation operating a charitable hospital.
